

IEC Power Cords, IEC 60320 C15 Right Angle Connector Plug, Type C15, 3 poles, 3 wires, UL, ETL, VDE, TUV, SAA, KC, PSE Certified

Plug and Connector Type: IEC 60320 C15

IEC Power Cords, rated 10A, 13A, 15A at 125V/250V, featuring the Type C15 three-pole high-temperature connector that mates with an IEC 60320 C16 inlet. This IEC AC power cord meets the IEC 60320 C15 hot-condition standard and is available with UL, ETL, VDE, TUV, SAA, KC and PSE certification. The non-rewirable, fully molded connector integrates line, neutral and earthing contacts for Class I grounding, and its keyed notch distinguishes it from a C13 for use in higher-temperature environments up to 120C. It pairs with heat-resistant flexible PVC or crosslinked elastomeric rubber leads and is ideal for electric kettles, heaters, hot-plates, lighting rigs and servers running warm. Our factory molds these C15 cords in an ergonomic design and customizes length, gauge and color; all are RoHS and REACH compliant.
