

30 Amp RV Surge Protector Adapter with Indicator, NEMA TT-30P to NEMA L14-30R

Plug and Connector Type: NEMA TT-30P Male to NEMA L14-30R Female

This is the NEMA TT-30P to NEMA L14-30R adapter with the indicator and cover fitted. Wiring and ratings match the plain build.

Because this is the adapter people use on generators and transfer switch cords, a supply indicator is worth having: it shows what the source is doing before the equipment is switched on.

RV Surge Protector Adapters

Specifications

Label	Value
Product Name:	30 Amp RV Surge Protector Adapter with Indicator, NEMA TT-30P to NEMA L14-30R
Adapter Type:	NEMA TT-30P Male Plug to NEMA L14-30R Female Receptacle
Male Plug Connector:	NEMA TT-30P
Female Receptacle Connector:	NEMA L14-30R
Male Plug Current Rating:	30A
Female Receptacle Current Rating:	30A
Maximum Current:	30A
Voltage Rating:	125V/250V
Prong Configuration:	3 prong 2 poles 3 wires (male plug) / 4 prong 3 poles 4 wires (female receptacle)
Power Indicator:	LED power indicator fitted at the plug end
Standard:	UL 817
Safety Approvals:	UL, cULus
Environmental Certifications:	RoHS, REACH
Housing Material:	PA66 Flame-Retardant Engineering Plastic
Contact / Blade Material:	Nickel-Coated Brass, Pure Copper Conductive Parts
Flammability Rating:	UL 94 V-0
Temperature Rating:	-40 C to +75 C
Color:	Black is standard; any color available on request
Testing:	Hi-Pot (Dielectric Withstand), Polarity (Pinout) and Continuity
Customization:	OEM / ODM; custom colors, packaging and labeling available
Country of Origin:	Made in China
Packing:	Standard Export Carton

Typical Applications

Standby generator connections, transfer switch inlet cords and welding sets that take an L14-30 plug, fed from a 30 amp RV outlet. Confirm the load needs a locking connector rather than true 240V, exactly as with the plain version.

Before You Plug In

Check the source before the load. If the indicator reports a fault at the supply, do not close the transfer switch onto it.

Ordering Notes

Specify the version with the indicator when both are wanted. The plain build is the same part without those fittings.
