

30 Amp RV Surge Protector Adapter, NEMA TT-30P to NEMA TT-30R, Shell B

Plug and Connector Type: NEMA TT-30P Male to NEMA TT-30R Female

This is the second of the three 30 amp RV surge protector adapters we build on this circuit, and it uses the B housing. Electrically it is the same part as the A shell: NEMA TT-30P plug on one side, NEMA TT-30R receptacle on the other, 30A 125V, UL 817 with UL and cULus listing.

Buyers who order in volume usually pick a shell first and then hold it. If you have been shipping the B body, it stays available; if you want to change shells, the internal parts do not change with it.

RV Surge Protector Adapters

Specifications

Label	Value
Product Name:	30 Amp RV Surge Protector Adapter, NEMA TT-30P to NEMA TT-30R, Shell B
Adapter Type:	NEMA TT-30P Male Plug to NEMA TT-30R Female Receptacle
Male Plug Connector:	NEMA TT-30P
Female Receptacle Connector:	NEMA TT-30R
Male Plug Current Rating:	30A
Female Receptacle Current Rating:	30A
Maximum Current:	30A
Voltage Rating:	125V
Prong Configuration:	3 prong 2 poles 3 wires
Power Indicator:	Not fitted
Standard:	UL 817
Safety Approvals:	UL, cULus
Environmental Certifications:	RoHS, REACH
Housing Material:	PA66 Flame-Retardant Engineering Plastic
Contact / Blade Material:	Nickel-Coated Brass, Pure Copper Conductive Parts
Flammability Rating:	UL 94 V-0
Temperature Rating:	-40 C to +75 C
Color:	Black is standard; any color available on request
Testing:	Hi-Pot (Dielectric Withstand), Polarity (Pinout) and Continuity
Customization:	OEM / ODM; custom colors, packaging and labeling available
Country of Origin:	Made in China
Packing:	Standard Export Carton

Typical Applications

Use it the way you would use any 30 amp RV adapter: pedestal receptacle to trailer cord, inline, no rewiring. Because the housing is the only difference from the A and C shells, the choice is normally made on the shape that fits your pedestal box, your trailer inlet, or your retail packaging.

Before You Plug In

Check the pedestal wiring before the first hookup of the season: reverse polarity and open ground at park pedestals are common enough that a plug-in tester earns its keep. The adapter passes through whatever the pedestal gives it.

Ordering Notes

Private label orders are quoted against the shell you pick. Send the model code, the shell letter and your packing requirements.
