

30 Amp RV Surge Protector Adapter, NEMA TT-30P to NEMA TT-30R, Shell C

Plug and Connector Type: NEMA TT-30P Male to NEMA TT-30R Female

This is the third shell we mould for the 30 amp RV surge adapter: NEMA TT-30P plug, NEMA TT-30R receptacle, 30A 125V, 3,750W, UL 817. The electrical part does not change between the A, B and C shells, and neither does the certification. Orders are usually placed against a shell because of how the adapter sits at the pedestal or how it packs. Where the trailer inlet is a locking type, look at the [NEMA TT-30P to NEMA L5-30R adapter](#) or the [NEMA TT-30P to NEMA L14-30R adapter](#) instead.

Color:	Black is standard; any color available on request
Testing:	Hi-Pot (Dielectric Withstand), Polarity (Pinout) and Continuity
Customization:	OEM / ODM; custom colors, packaging and labeling available
Country of Origin:	Made in China
Packing:	Standard Export Carton

Typical Applications

Inline between a 30A RV pedestal receptacle and a 30 amp trailer cord, or as the adapter on a camper van, food trailer or work trailer with a [NEMA TT-30P](#) shore cord. Nothing else is needed to install it.

Before You Plug In

If you run the same site every season, replace the pedestal receptacle when the blades feel loose. Adapters are cheaper than the trailer cord end they protect.

Ordering Notes

Shells A, B and C are not interchangeable in the same retail box. Confirm the shell letter when you place the order.
